MINT PILLOWS STAIN-RESISTANT PILLOWS PERFECT FOR PET LOVERS

Who says animal lovers can't enjoy fine furnishings? Mint Pillows are original, contemporary art pillows created for design-conscious pet owners. Toss them on the sofa, your patio chaise or even around the pool – these outdoor/indoor beauties are durable, as well as stain- and fade-resistant and hold up against fur, drool and paw prints just as well.

Designer Pillows Stand Up to Hair, Drool, Muddy Paws

"We love big family gatherings with kids, dogs, good food and wine," say San Diego-based Kathleen Roarty, founder of Mint Pillows. "We wanted modern design, comfort and style without worrying about dogs, kids, stains or durability. After searching in vain for a contemporary pillow collection that would work outdoors under what we call 'real life' situations, we decided to make them ourselves. Spills, paw prints and children all live well with these pillows," says Roarty, "But first and foremost, the designs and color palettes are our priorities."

Smart Style, Responsible Manufacturing

Mint Pillows features three new, artful and surprisingly durable pillow collections – Bali, Aloha and Tokyo. Featuring culturally traditional designs from the worldwide travels of the eclectic Roarty family, Mint Pillows' limited-edition pillows are made by hand in small quantities using socially and environmentally responsible practices. Each pillow is individually numbered and dated. Each pillow is made of Outdura® canvas, providing durable versatility for indoor and outdoor living.

Created By Artists, Tested by Families

Kathleen is an artist, interior designer and color specialist with more than 25 years experience in residential design. She is a current member and founding Vice President of The North American chapter of The International Association of Color Consultants, and is the co-founder and designer-in-chief of Mint Pillows, Inc. She lives in San Diego, California with her husband Dan, and is regularly visited by kids, grandkids and fur-kids.
